

IAQA WORKSHOP

ORLANDO FLORIDA CHAPTER

Friday, November 6, 2009 NOON – 4:30 p.m.
(Doors open at 11:30 a.m. for registration)

Location: Residence Inn
825 Heathrow Park Lane
Lake Mary Florida 32746

SEMINAR 1: HIGH RISK AREAS FOR LEGIONELLA IN COMMERCIAL AND RESIDENTIAL ENVIRONMENTS

SEMINAR 2: TESTING & SAMPLING METHODS FOR LEGIONELLA

ABOUT THE SEMINAR:

SEMINAR 1: Legionnaires' disease is a form of pneumonia, and the microorganism responsible for the disease is a naturally occurring water bacterium. Legionella is found in lakes, streams, rivers, groundwaters, and even some soils. It can escape water plant chlorination treatment and is thus found in domestic (potable) water plumbing and other water-use systems (e.g., commercial, industrial, process, and HVAC). In many of these systems, it finds conditions that favor a disease risk. This segment will review typical suspect areas, what to expect, and how to project a positive resolution.

SEMINAR 2: A component of the risk evaluation for any potential environmental concern in a building is the decision of how far to go in inspection and testing for hazardous materials, including evidence of *Legionella sp.* bacteria. The level risk determines the appropriate level of inspection and testing. In turn, the level of risk is comprised of several factors: the known history of the building, the visual observation of building conditions, and the vulnerability or health fragility of building occupants. This area will define the testing and sampling needed to accurately do a risk assessment.

EDUCATIONAL TOPIC: Our focus will be on providing solid continuing education, as usual. We will have Q&A, so you will have an opportunity to discuss your own ideas and learn from your peers. You won't want to miss this once in lifetime seminar with the very architects of the new standard!!! Register early.

FEATURED SPEAKERS

Speaker 1: Rick Ruckstuhl President of Engineered Water Systems. Mr. Ruckstuhl entered the water treatment chemicals business in 1980 after spending 20 years designing and servicing water systems and chemical treatment for water systems at customers such as Chevron, Mobil Oil, Duke Management, Texaco, Litton Laser, Sprint Telephone, Lincoln Properties and Trammell Crow. He has a degree in zoology and started Waterhouse Corporation in 2001.

Speaker 2: . Dr. Rajiv R. Sahay, Pure Air Control Services Dr. Rajiv R. Sahay CIAQP, FAIS, is the Senior Microbiologist and Laboratory Manager of Pure Air Control Services, Inc. Dr. Sahay has had more than 12 years of experience at doctoral and postdoctoral level in experimental and analytical research pertaining to the biological and environmental sciences.

REGISTRATION FEES:

IAQA Members - \$119, **Non-Members** - \$129, all "at the door"- \$149 **Fees include morning coffee, lunch, handouts and afternoon break. Limited Space is available.**

CANCELLATION POLICY: Total refunded if cancelled more than seven (7) business days prior to the event; \$50.00 cancellation fee if cancelled less than seven (7) business days prior to the event. **Cancellation requests must be received in writing either by fax or email.**

CONTINUING EDUCATION CREDITS: 4 AmIAQ Certification Renewal Credits Certificates of Attendance will be distributed after the seminar.

IAQA WORKSHOP

ORLANDO FLORIDA CHAPTER

Friday, Nov 6th 2009 12 Noon – 4:30 p.m.
(Doors open at 11:30 a.m. for check-in, name badges, handouts)

.CONTINUING EDUCATION CREDITS: 4 AmIAQ Certification Renewal Credits Certificates of Attendance will be distributed after the seminar.

REGISTRATION FORM

(One Registration Form Per Person Please)

(Please print clearly in order that we may have your name spelled correctly for your name badge)
